About the Principles for Responsible Management Education (PRME)

The Principles for Responsible Management Education (PRME) is a United Nations-supported initiative founded in 2007 that aims to raise the profile of sustainability in their classrooms through Seven Principles focused on serving society and safeguarding our planet.

PRME engages business and management schools to ensure they provide future leaders with the skills needed to balance economic and sustainability goals, while drawing attention to the Sustainable Development Goals (SDGs) and aligning academic institutions with the work of the UN Global Compact. Driven by its mission to transform management education, PRME equips today's business students with the understanding and ability to deliver change tomorrow. As a voluntary initiative with over 800 signatories worldwide, PRME has become the largest organized relationship between the United Nations and management-related higher education institutions.

“*The PRME initiative was launched to nurture responsible leaders of the future. Never has this task been more important. Bold leadership and innovative thinking are needed to achieve the Sustainable Development Goals (SDGs).*

Antonio Guterres

Secretary-General (2017 - Present)

United Nations

”

Principles of PRME

Purpose

We advance responsible management education to foster inclusive prosperity in a world of thriving ecosystems.

Values

We place organizational responsibility and accountability to society and the planet at the core of what we do.

Teach

We transform our learning environments by integrating responsible management concepts and practices into our curriculum and pedagogy.

Research

We study people, organizations, institutions, and the state of the world to inspire responsible management and education practice.

Partner

We engage people from business, government, civil society, and academia to advance responsible and accountable management education and practice.

Practice

We adopt responsible and accountable management principles in our own governance and operations.

Share

We share our successes and failures with each other to enable our collective learning and best live our common values and purpose.

The Sustainable Development Goals (SDGs)

In September 2015, all 193 Member States of the United Nations adopted a plan for achieving a better future for all – laying out a path over the next 15 years to end extreme poverty, fight inequality and injustice, and protect our planet. At the heart of Agenda 2030 are 17 Sustainable Development Goals (SDGs) and 169 related targets that address the most important economic, social, environmental and governance challenges of our time. The SDGs clearly define the world we want – applying to all nations and leaving no one behind. Successful implementation of the SDGs will require all players to champion this agenda; the role of higher education is critical to this.

Getting Started

This section provides foundational information about NHH Norwegian School of Economics, including key details and basic institutional data.

Mission

NHH will deliver high-quality education, research and knowledge dissemination and will interact with the business community and society to realize its mission statement **Together for sustainable value creation**.

The mission statement “Together for sustainable value creation” has given the direction for the Strategy for NHH 2022-2025, and the strategy is being based on four main aims and main objectives: Education, Research, Collaboration with the business community and society and organization and resources.

Vision

NHH will be a driving force for development in business and society and will produce graduates who contribute to sustainable value creation. NHH aims to be a top European business school that leads the way in the development and dissemination of expertise.

At NHH, sustainability will be addressed in our research and dissemination; it will permeate our study programs and be incorporated into the operation of our school.

Strategy Alignment

Strategy alignment

NHH has defined main aims and objectives in four areas; Education, Research, Collaboration with the business community and society and Organization and resources.

NHH's core activities will embrace a broad spectrum of themes that follow on from the 17 sustainable development goals. As a business school, NHH will have particular emphasis on innovation, restructuring and policies that facilitate sustainable value creation and inclusive growth.

The main aims and objectives in the four areas are:

Education:

NHH shall educate excellent business economists and future leaders with sound analytical skills, a good understanding of technology, broad social competence and a strong commitment to society.

Research:

NHH shall be a research-intensive business school with research at a high international level.

Collaboration with the business community and society:

NHH shall disseminate research-based knowledge and set the agenda for public debate. NHH shall strengthen interaction and collaboration with the business community and public institutions, and the alumni network shall be further strengthened.

Organization and resources:

NHH shall have an efficient, flexible and adaptable organization that facilitates high quality and excellent performance within education and research and in its interaction with the business community and society.

 Bachelor of Business Administration (B.B.A.)

Masters Programs

 Master of Business Administration (M.B.A.)

Doctoral Programs

 Doctor of Business Administration (D.B.A.)

Purpose

We advance responsible management education to foster inclusive prosperity in a world of thriving ecosystems.

Letter of Commitment

A WORD FROM THE RECTOR – OUR COMMITMENT TO PRME

The Norwegian School of Economics (NHH) remains committed to the continued implementation of the Principles for Responsible Management Education (PRME). PRME is closely aligned with NHH's mission and values. Our strategy states that NHH will be a driving force for development in business and society, producing graduates who contribute to sustainable value creation.

Since our last report, NHH has continued to advance a wide range of sustainability-related initiatives. This applies to our education and research, as well as our cooperation and dialogue with society. The world is changing rapidly due to megatrends such as climate change, resource scarcity, rapid technological development, shifting globalization patterns, and increasing inequality and polarization. These changes challenge established business models and institutions. NHH is developing the knowledge, attitudes, and skills required to respond effectively to these challenges.

Given the urgency of achieving sustainable global change, we believe it is of utmost importance to educate responsible leaders for an inclusive and sustainable global economy. With our commitment to the UN Sustainable Development Goals (SDGs), we are continuously improving and learning how to embed sustainability into our education. PRME provides both an important framework and a valuable network that support us in this mission.

Professor Helge Thorbjørnsen
Rector, NHH

Institutional Engagement

26% - 50%

of faculty at NHH Norwegian School of Economics actively contribute to our work with PRME, advancing responsible management education, or addressing sustainable development challenges through their work.

Values

We place organizational responsibility and accountability to society and the planet at the core of what we do.

Who Champions Responsible Management Education at Our Institution

- ❖ Senior leadership office
- ❖ Interdisciplinary efforts across business school
- ❖ Research or issue group, society, or club leading sustainability efforts

Teach

We transform our learning environments by integrating responsible management concepts and practices into our curriculum and pedagogy.

Fostering Innovation

A lot

Our institution supports innovation significantly through teaching and learning.

Experiential Learning

Somewhat

Teaching and learning at our institution moderately support experiential learning.

Learning Mindset

A lot

Our institution supports a lifelong learning mindset significantly through teaching and learning.

Method of Teaching and Learning

In person

Traditional classroom-based learning with face-to-face instruction.

Research

We study people, organizations, institutions, and the state of the world to inspire responsible management and education practice.

Research vs Research for RME/Sustainable Development

Research Funding

In 2024, NHH Norwegian School of Economics was awarded funding for research that is:

National

International

Socializing Research

In 2024, NHH Norwegian School of Economics contributed research findings to:

- ❖ Community organizations
- ❖ Government and policy makers
- ❖ Industry and business networks
- ❖ International media
- ❖ Local media
- ❖ National media
- ❖ Open-access platforms

Partner

We engage people from business, government, civil society, and academia to advance responsible and accountable management education and practice.

Institutional Partnerships

- ❖ AACSB (Association to Advance Collegiate Schools of Business)
- ❖ AMBA (Association of MBAs)
